

## Čo je karuselové učenie?

Carousel learning je online kvízový nástroj, ktorý pomáha študentom začleniť vedomosti do dlhodobej pamäte.

### Prístup k kolotočovému vzdelávaniu

Carousel Learning je zabezpečená webová stránka, ku ktorej je možné pristupovať prostredníctvom úlohy Microsoft Teams. Ak chcú študenti získať prístup k úlohe Učenie mimo triedy ako súčasť Carousel Learning, musia sa prihlásiť do Microsoft Teams a prejsť do požadovaného triedneho tímu, kde si môžu pozrieť všetky vzdelávacie aktivity mimo triedy.

### Príklad úlohy geografie v Microsoft Teams – Rotujúca výučba mimo triedy

The screenshot shows the Microsoft Teams interface. On the left, the navigation pane is visible with the team name 'TVA-2024-11A-Gg'. The main area displays an assignment titled 'OOCL - Lagos challenges & Makoko carousel questions' due on September 20, 2024, at 7:00 AM. The instructions section contains a list of steps: clicking the Carousel link, logging in with a full name, reviewing questions, taking the test, and checking answers. A red box highlights the 'Reference materials' section, which includes a link to 'Carousel Learning' with the URL 'app.carousel-learning.com'. Another red box highlights the '1. Out of Class Learning' option in the left-hand navigation pane.

Kolotočové kvízy sú navrhnuté tak, aby sa študentom ľahko používali. Nasledujúce video od pána Boxera (spoluzakladateľa Carousel) pokrýva všetky kľúčové body používania systému za menej ako 10 minút. Naskenujte QR kód:

# Five ways to support your child with their Carousel homework

Carousel is an online quizzing platform that we use for homework. Students have access to question and answer flashcards which they use independently to learn important knowledge and then complete a quiz to test their knowledge.

Flashcard  
revise

Take quiz

Student mark

Teacher mark

As time goes on, students will learn more and more in school. In order to make sure they don't forget all this information, Carousel uses evidence-based strategies to help strengthen their memories over the long term.

1

The best way to use Carousel is over time, not just all in one evening. Instead of doing all the work the night before it is due, make sure students do one short round of flashcards on one day, another round of flashcards on another day and the quiz on a third day. As much as possible, they should spread it out. For example:

Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Teacher sets homework	5-10 mins flashcards	10-15 mins flashcards	Quiz + mark	5-10 mins flashcards	Retake quiz	Homework due

2

When they are doing the flashcards, make sure they are speaking out or writing down their answers, rather than just thinking about it in their heads.

3

Ask them some questions from the flashcards and make sure that their answers are the same (or very similar to) the flashcard answers.

4

Mark their quiz with them and make sure they are being honest about what they got right and wrong.

5

Make sure that if they get less than 80% on the quiz, they go back to the flashcards first, and then retake the quiz.
